- Media Playback: play photos, PDFs, videos and music from a USB drive, micro SD or the internal storage
- An integrated scheduler allows content programming based on time and day
- Free and easy-to-use content management system (CMS)
- Android OS 5.0.1
- RJ45, RS232, IR device control support
- Built-in speakers
- VESA mount compatibility for flexible installation

The IMHD-Series 4K digital signage displays with embedded Android OS, free content management system (CMS) and versatile media player are designed to provide a smart and enhanced digital signage solution. Featuring a built-in scheduler and network connections, users can remotely manage and schedule digital contents, and deliver the right message to the right audience without any hassle. Digital media such as photos, music and videos can be stored in the internal 8GB memory, USB drives or Micro SD cards. The IMHD-Series displays are ideally designed for retail shops, restaurants, hotels and other public spaces.

#### Easily Create and Publish Content

Deliver attractive messaging with the free and easy-to-use Content Management System (CMS) that works exclusively with IMHD-Series displays. With preloaded templates and integrated widgets, you are able to create, modify and design content easily. Simply connect the IMHD-Series display with an RJ45 cable or an optional Wi-Fi dongle and instantly publish signage campaigns through your local network.

#### Simple Software Integration with Android OS

With Android OS embedded into the display, you can easily integrate your app of choice or choose from a variety of supported Android apps. Using the integrated HTML5 and Chromium-based browser, you can display online or cloudbased content.

#### Versatile Content Playback and Scheduling

The embedded media player allows to conveniently play content from a USB drive, micro SD or the internal storage. Simply create scheduled playlists based on time and day, and configure playback settings with the included remote control to display your personalized content.
