# BNC Monitors

HDMI/VGA/BNC Monitors

A monitor with a BNC port is a valuable asset for the security and surveillance industry due to its versatility and reliability. It allows seamless integration with analog CCTV cameras and DVRs, ensuring compatibility with legacy systems while delivering high-quality video with minimal signal loss or interference, even over long distances. The plug-and-twist design ensures quick, secure setup, and the low-latency direct video feed supports real-time monitoring. Additionally, BNC ports are ideal for hybrid setups, enabling analog cameras to function alongside digital systems during upgrades. This flexibility makes a BNC port a great option for effective surveillance operations.

IMHD-10N
10" HD 800 × 600 LED Monitor, HDMI, VGA, Looping BNC Inputs

IMHD-17AN
17" HD 1280 x 1024 LED Monitor, HDMI, VGA, Looping BNC Inputs

IMHD-24HVB
IMHD-24HVBN
24" Full HD 1920 x 1080 LED Monitor HDMI 2.0, VGA, Looping BNC Inputs & Outputs

IMHD-20HVB
IMHD-22HVB
IMHD-22HVBN
20/22" Full HD 1920 x 1080 LED Monitor HDMI, VGA, Looping BNC Inputs & Outputs

IMHD-32HVBN
32" 1920 x 1080 Monitor, HDMI 2.0, VGA Input, Looping BNC Inputs & Outputs

IMHD-43HVBN
43" 1920 x 1080 Monitor, HDMI 2.0, VGA Input, Looping BNC Inputs & Outputs

BNC Looping

A BNC loop-out on a security and surveillance monitor allows the video signal to be sent to another device without interrupting the original feed. This feature is useful for distributing the same video to multiple devices, such as additional monitors, DVRs, or video switchers, enabling flexible viewing or recording setups. It's also ideal for monitoring the same feed in different locations, such as control rooms or remote stations, and can assist in troubleshooting by connecting to diagnostic tools to verify signal quality. The BNC loop-out enhances scalability and functionality in surveillance systems.

TVI Loop Monitors

IMHD-24HDLOOP
24" Full HD 1920 x 1080 LED Monitor, HDMI, VGA, BNC HD Inputs (TVI/AHD/CVI) BNC Loop Out

IMHD-32HDLOOP
32" Full HD 1920 x 1080 LED Monitor, HDMI, VGA, BNC HD Inputs (TVI/AHD/CVI) BNC Loop Out

Most Monitors Support Portrait Mode

Product Highlight

Metal, Waterproof, & Vandal Proof

Side View with Protective Covers

A waterproof and vandal-proof monitor offers exceptional durability and reliability, making it ideal for challenging environments. Its waterproof design protects against moisture, spills, and heavy rain, ensuring functionality in outdoor or high-humidity settings. Meanwhile, its vandal-proof construction resists impact, scratches, and tampering, making it suitable for public spaces, transportation hubs, and other high-traffic areas prone to potential damage. Together, these features enhance the monitor's longevity, reduce maintenance costs, and ensure consistent performance in both harsh and unpredictable conditions, providing peace of mind and a higher return on investment.

OVM Outdoor Vandal Series Monitors: Designed for 24/7 Operation, 1920 x 1080, 300cd, IK10 Vandal Resistant, IP67 Weatherproof, 5ms (no ghosting!), HDMI 2.0, VGA, Built-in Speaker

IMHD-32OVM
32" metal waterproof and vandal-proof monitor

IMHD4K-43OVM
43" 4K metal waterproof and vandal-proof monitor

IMHD4K-55OVM
55" 4K metal waterproof and vandal-proof monitor

IMHD4K-65OVM (Special Order)
65" 4K metal waterproof and vandal-proof monitor

Waterproof HDMI Connection

4K

4K Monitors
A 4K resolution monitor provides ultra-high-definition clarity, enabling users to see critical details like faces and license plates with exceptional precision. It allows better digital zooming without pixelation and can display multiple camera feeds in full detail simultaneously. This future-proof technology enhances efficiency in monitoring and ensures high-quality evidence for investigations or legal proceedings.

IMHD4K-28
28" Ultra High Definition 4K Monitor
3840 x 2160 Monitor HDMI, DisplayPort

IMHD4K-32A
32" Ultra High Definition 4K Monitor
3840 x 2160 Image, HDMI, DisplayPort

IMHD4K-43N
IMHD4K-55N
43/55" Ultra High Definition 4K Monitor
3840 x 2160 Image, HDMI, VGA, DisplayPort

IMHD4K-65N
65" Industrial 4K Metal Case Monitor
3840 x 2160, HDMI, DVI, VGA,
Built-In Speaker

IMHD4K-50VANDALOD
IMHD4K-65VANDALOD
50/65" 3840 × 2160 4K Monitor
Weather Resistant
Vandal-Proof Monitor

Most Monitors Support Portrait Mode

Speciality

PVM Monitors
Public View Monitors (PVMs) with integrated security cameras serve as a powerful deterrent to theft and misconduct by displaying live surveillance footage, reminding individuals they are being monitored. They are ideal for retail stores, entryways, and high-traffic areas where visible security measures can reduce shrinkage and improve safety. Additionally, PVMs enhance customer trust by demonstrating a commitment to security and transparency in public or commercial spaces.

IMHD-7PVM
7" HD Analog PVM Monitor
(2) HDMI, VGA, RJ 45 PoE Input,
BNC Output, 5 MP Built-in Camera, PoE+

IMHD-27PVM
27" HD Analog PVM Monitor
(2) HDMI, VGA, RJ 45 PoE Input, BNC Output, 5 MP Built-in Camera, PoE++ Powered

IMHD-32PVM2HDMI
32" 1080P IP PVM Metal Case Monitor
(2) HDMI, (1) VGA, BNC Input, BNC Output

IMHD-43PVMMULTI
43" 1080P Metal PVM
(2) HDMI, VGA, Built-in Camera
with Motion Detection

Additional PVM Sizes Available Upon Request

Frameless Monitors
Frameless monitors provide a clean and minimalist design that enhances the visual appeal of a workspace or gaming setup. Their thin bezels make the screen look larger and more immersive.

IMHD-22HVF
22" Frameless Plastic Case LED Monitor
1920 x 1080 LED, HDMI 2.0, VGA

IMHD-27HDF
27" Frameless Plastic Case LED Monitor
1920 x 1080, HDMI 2.0, DP

IMHD-27HDFW
27" Frameless Plastic Case LED Monitor,
1920 x 1080, HDMI 2.0, DP

Flush Monitors
Flush mount monitors offer a sleek, modern look by sitting level with the installation surface, seamlessly integrating into walls, desks, or enclosures while saving space and reducing bulk. Their design also enhances durability and safety, minimizing the risk of accidental damage or snagging in high-traffic areas.

About InVid Tech

The world wants to feel safe. InVid Tech offers products to Alert, Connect, & Secure You. You can stop potential issues before they become problems. Innovative Video Technology, InVid Tech, is a security equipment provider. We offer a wide array of products, including:

- NDAA & TAA Compliant Products
- Cloud & Local Storage
- IP & HD Analog Surveillance
- Mobile Solar Surveillance
- Facial Recognition Surveillance
- Thermal Surveillance
- Body/Covert Surveillance

- Interactive Collaborative Displays
- 4K & Standard Displays
- Healthcare Safety Technology
- Mobile Credentials
- S1ecure Electronic Lockers
- Security Solar Lighting
- License Plate Recognition

- Video Analytics
- Central Management Software
- Turnstiles & Access Control
- Smart Traffic Management
- Video Metadata
- Custom Products Available

We are committed to providing personalized service and expert support throughout every phase of your project. Our experienced, U.S.-based team includes Sales, Customer Service, and Technical Support specialists, complemented by a nationwide network of representatives ready to assist wherever needed.

To help you maximize project success, we offer a variety of programs, including Project Registration, Design Assistance, and Recurring Monthly Revenue (RMR) options, designed to boost profitability and ensure customer satisfaction.

InVid Tech products are user-friendly and simple to install, many with plug-and-play and P2P connectivity. From entry-level systems to advanced AI-driven technologies—such as License Plate Recognition, Facial and Human Detection, and Vehicle Classification—our solutions scale with ease. Start with a single camera and expand to cover thousands of locations across wide regions.

InVid Tech: Here to Secure Your World, Every Step of the Way.
