HDMI/VGA/BNC Monitor

USER'S MANUAL

InVid Tech
Innovative Video Technology
Please read this manual carefully before operating your set.
Retain it for future reference.
Record model number and serial number of the set.
See the label attached on the back cover and quote this
information to you r dealer when you require service.

TROUBLE SHOOTING

NOTE: There is a problem in VGA mode.(Only VGA mode applied)

PROBLEM	POSSIBLE SOLUTION
The signal is out of range	-Adjust resolution,horizontal frequency,or vertical frequency. -Check it whether the signal cable is connected or loose. -Check the input source.
Vertical bar or stripe on back ground&Horizontal Noise&Incorrect position	-Work the auto configure or adjust clock,phase,or H/V position.
Screen color is unstable or single color	-Check the signal cable. -Reinstall the PC video card.

4.Maintenance

Early manifuctions can be prevented.Careful and regular cleaning can extend the amount of time in that way,you will have a new one.Be sure to turn the power off and unplug the power cord before you begin any cleaning.

Cleaning the screen

Here's a great way to keep the dust off screen for a while.Wet soft cloth in a mixture of lukewarm water and a little fabric softener or dish washing detergent.Wring the cloth until it's almost dry,and then used it to wipe the screen.

Make sure the remained water is off the screen,and then let it air-dry before you turn on your monitor.

Cleaning the cabinet

To remove dirt or dust,wipe the cabinet with a soft,dry,lint-free cloth.Please be sure not to use a wet cloth.

Extended Absence

If you expect to leave your monitor dormant for a long time(such as a vacation), it's a good idea to unplug the power cord to it from lightning or power surges.

WARNING

PRODUCT CRITERIA

WARNING

CAUTION
RISK OF ELECTRIC SHOCK
DONOT OPEN

WARNING：
TO REDUCE THE RISK OF ELECTRIC SHOCK DO NOT REMOVE COVER(OR BACK). NO UESR SERVICEABLE PARTS INSIDE. REFER TO QUALIFIED SERVICE PERSONNEL.

The lightning flash with arrowhead symbol,within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the products enclosure that may be of sufficient magnitude to constitute a risk of electric shock to rersons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions accompanying the appliance.

REGULATORY INFORMATION
This equipment generates,uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions,it may cause harmful interference to radio communications however,there is no guarantee that interference will not occur in a particular installation.If this equipment does cause harmful interference to radio or television reception,which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or experienced radio/monitor technician for help.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

CAUTION:
Do not attempt to modify this product in any way without written authorization from CVT electronics group. Unauthorized modification could void the user's authority to operate this product.

Safety instructions

WARNING:
To reduce the risk of fire or electric shock,do not expose this apparatus to rain or moisture.

Apparatus shall not be exposed to dripping or splashing area. An objects filled with liquids such as vases shall not be placed on the apparatus.

IMPORTANT SAFETY INSTRUCTIONS

1.Read these instructions.
2.Keep these instructions.
3.Heed all warnings.
4.Follow all instructions.

5.Do not use this apparatus near water.

6.Clean only with a dry cloth.

7.Do not block any of the ventilation openings.Install in accordance with the manufacturer's instructions.

8.Do not install near any heat source such as radiators,heat registers,stoves,or other apparatus (including amplifiers) that produce heat.

9.Unplug this apparatus during lightning storms or when unused for long period of time.

10.Protect the power cord from being walked on or pinched particularly at plugs,convenience receptacles,and the point where they exit from the apparatus.

11.Only use the attachments/accessories specified by the manufacturer.

SAFETY INSTRUCTIONS

12.Refer all servicing to qualified service
    personnel.Servicing is required when the
    apparatus has been damaged in any
    way,such as power supply cord or plug is
    damaged,liquid has been spilled or
    objects have fallen into the
    apparatus,the apparatus has been
    exposed to rain or moisture,does not
    operate normally,or has been dropped.

13.Use only with a cart,
    stand,tripod,bracket,or
    table specified by the
    manufacturer,or sold with
    the apparatus.When a cart
    is used,be cautious when moving the
    cart\apparatus combination to avoid
    injury from tip-over.

14.Do not defeat the safety purpose of the
    polarized or grounding type plug.A
    polarized plug has two blades with one
    wider than the other.A grounding type
    plug has two blades and a third grounding
    type plug has two blades and a third
    grounding prong.The wide blade or the
    third prong is provided for your safety.
    When the provided plug does not
    fit for your outlet,consult an electrician
    for replacement of the obsolete outlet.

Note
-If the CCTV monitor feel cold to the touch,there may be a small "flicker" when
 it is turned on.This is normal,there is nothing wrong with CCTV monitor .
-Some minute dot defects may be visible on the screen,appearing as tiny red,green,or
 blue spots.However there have no adverse effect on the monitor's performance.
-Avoid touching the LED screen or holding your finger(s)against it for long periods of
 time.In that case,it may produce some temporary distortion effect on the screen.

CAUTION connecting the Power Cord
Most appliances are suggested to be placed upon a dedicated circuit; that is a single
outlet circuit which powers only that appliance and has no additional outlets or branch
circuits.
Do not overload wall outlets!Overloaded wall outets,loose or damaged wall outlets,
extension cords,frayed power cords,damaged or cracded wire insulation are
dangerous.Any of these conditions could result in electric shock or fire.Periodically
examine the cord of your appliance,and its if appearance indicates damage or
deterioration,unplug it,discontinue use of the appliance,and have the cord replaced
with an exact replacement part by an authorized servicer.Protect the power cord from
physical or mechanical abuse,such as being wisted,kinked,pinched,closed in a
door,or walded upon.Pay particular attention to plugs,wall outlets,and the point
where the cord exits the appliance.

On Disposal
-The fluorescent lamp used in this product contain a small amount of mercury.
-Do not dispose of this product with general household waste.
 Disposal of this product must be carried out in accordance to the regulations of your
 local authority.

NOTE: Picture of the instruction is not fotally with product you purchased,
          real product is referred as standard.
