

SEAMLESS INTEGRATION

Unlock Doors Directly from INVID-QR Intercom

A true cloud-to-cloud connection with PDK Access Control — no relay devices, no on-site wiring, no extra hardware required.

Instant Door Control

Real-time unlock, triggered straight from the intercom call.

Enterprise Security

HTTPS, OAuth2, and dual-layer verification end-to-end.

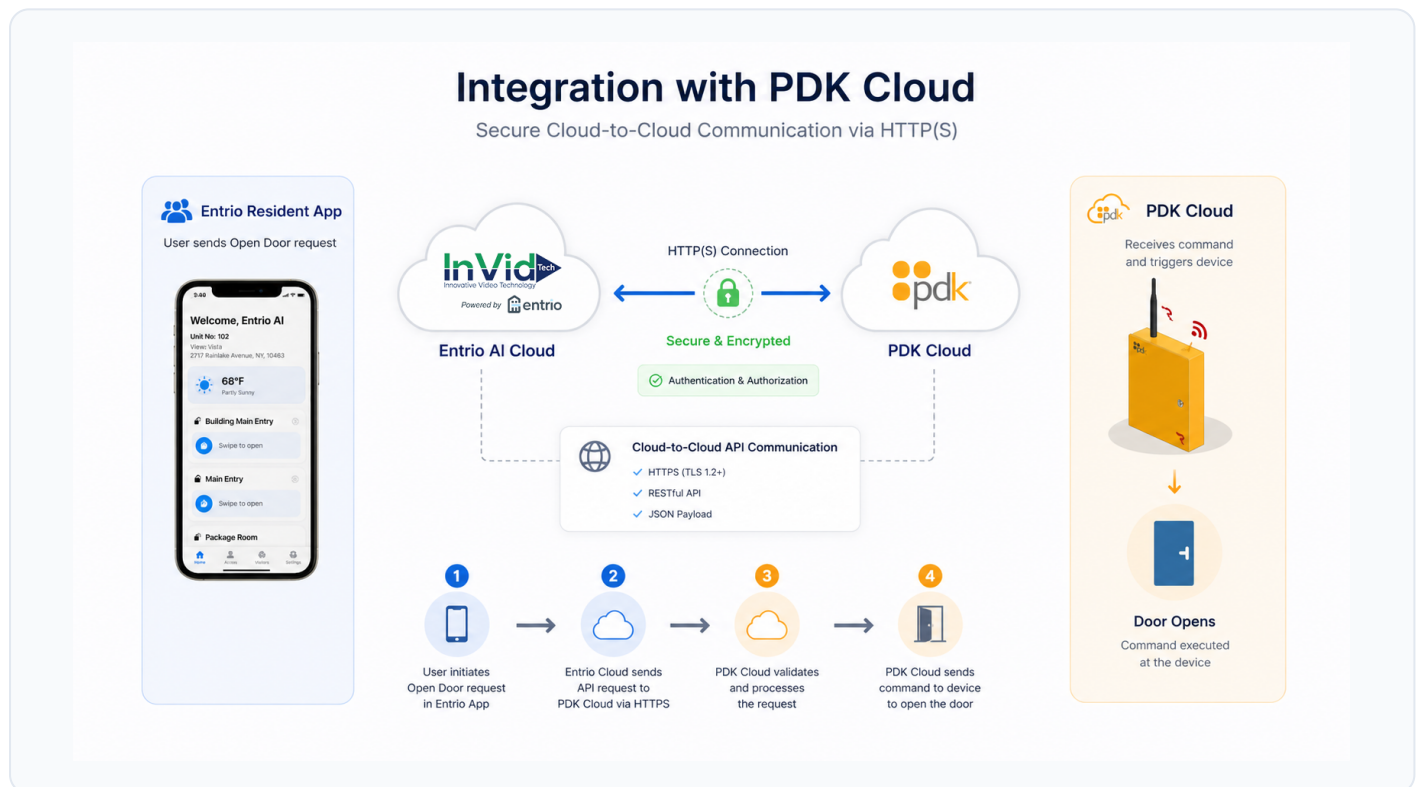

Included in License

No integration fees, no per-device cost, no surprises.

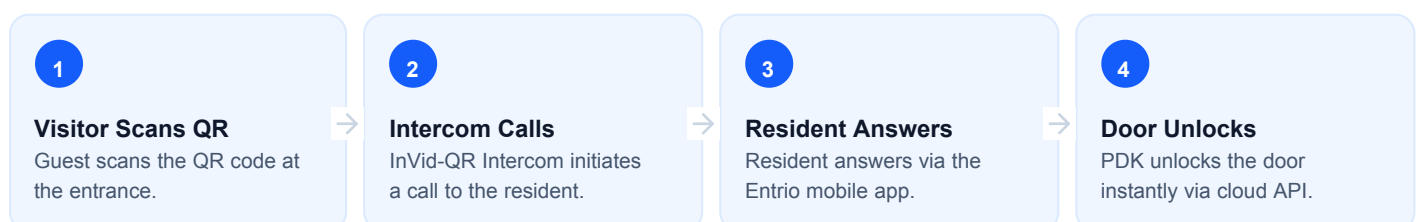

System Architecture

CLOUD-TO-CLOUD FLOW

Direct API integration between InVid QR and PDK Cloud — no ControlByWeb, no relays.

How It Works

Key Features

Effortless Integration

- ✓ One-click PDK account connection
- ✓ No complex setup or on-site configuration

Real-Time Door Control

- ✓ Unlock doors instantly from the mobile app
- ✓ Configurable auto re-lock after entry

Enterprise-Grade Security

- ✓ Secure HTTPS communication
- ✓ OAuth2 / token-based authentication
- ✓ Dual-layer verification across systems

True Cloud-to-Cloud

- ✓ Direct API integration with PDK cloud
- ✓ No ControlByWeb or relay hardware

Why It Matters

Lower Cost

- No additional hardware
- No installation cost
- No maintenance overhead

Faster Deployment

- Fully remote setup
- Live in minutes, not days

Smarter Access

- Integrated with intercom calls
- Seamless user experience

Future-Proof

- Easy to extend to other systems
- Unified cloud access control

Comparison

Feature	InVid QR + PDK	Traditional Relay Setup
Hardware Required	✓ None	✗ Relay device
Installation	Remote	On-site wiring
Cost	Included in license	Extra hardware + labor
Reliability	Cloud-native	Hardware dependent
Time to Deploy	Minutes	Hours to days

PRICING & LICENSING

- ✓ Included in InVid QR license
- ✓ No additional integration fees
- ✓ No per-device cost
